MEMBER CLUB

Club Meeting

Let's get busy! BIG NEWS...the date for the Leonard Bratton Memorial Hunt has been set: SATURDAY, SEPTEMBER 29, 2007. The Members only hunt will be a fun day, and we are hoping for a great turn out. Hope to see you there.

We had so many laughs and great stories at the August 7 meeting. We saw amazing finds on the Treasure Board—a slave tag, an Indian game ball, silver paratrooper wing pin, and a piece of silver coin cut into a quarter of the size of the coin. There was a good crowd there which included three visitors. We welcome them as our newest members: Frankie Bell, Jeff Kleparek, and John Urso. We are happy to have you join. When we first joined the Club, Leonard Bratton personally welcomed us and gave me a Sacagawea Coin. When I looked up information about her, it lead me on a long journey of reading many books about the Lewis & Clark Expedition.

Leonard always encouraged members to read and research. He would bring us a book he thought we might enjoy. Some time later a new member brought his wife, who was from Russia. Leonard welcomed her and gave her a Sacagawea Dollar. I told her the story about Sacagawea having her baby in William Clark's tent during the Expedition. She said yes, there is the baby on her back on the coin. I treasure my coin and my good fortune having had Leonard Bratton for a friend. I know it would please him to know we continue the Club traditions he helped start. We are seeking prizes for the Hunt. If you or the company you work for have a prize to donate, please bring them to the September 4 meeting. You can be creative; perhaps you have a gift on hand that you don't use or an old coin you can part with will be appreciated.

If you need to contact me, I can be reached through reddog57@earthlink.net. Hope to see you at the September meeting!

Treasure in the News

City Workers Find Pot of Gold

Somewhere in Tennessee police searched a muddy city parking lot where workmen discovered a (container-pot) of gold coins that may have been buried during the Civil War.

The U.S. gold pieces are worth (conservatively) up to \$3,000 each but it's unclear how many were found since the workmen made off with most of them.

"We have accounted for 177 and that's just by talking to people who said that they had possessed some," said the Mayor. "There may be a good bit more than that."

Many of the coins already have been sold to gold dealers. The coins were unearthed by city workmen resurfacing a downtown parking lot and other people apparently have visited the site since then. Word of the discovery spread through the town of 42,000 residents and the Mayor ordered city employees to seal off the area.

A policeman with a metal detector began the city's official search of the parking lot, which was cordoned off with yellow tape saying "Crime Area. Keep Out."

"I've asked the court to determine who the owner of the coins would be," the Mayor

said. "You can get as many different opinions as there are lawyers. Every lawyer has a different version. "One guy says if it's money, it belongs to the finder. Maybe that true. I don't know," he said.

"One guy says if it's a treasure trove, it belongs to the property owner. What is a treasure trove? I don't know. One guy says that the finder in this case is the city because they were in the employ of the city at the time they found it," he said.

If the money belongs to the city, the Mayor said he will take legal steps to recover it, although he noted such an undertaking would be complicated. The coins were \$2 1/2, \$5, \$10 and \$20 gold pieces. "The face value is not very important" said the Mayor. "The value of the coins is much more than the face value. "The latest mint date was something like 1857, something like that. I may be off a year or two. Some of them were back to the 1840's and the 1830's."

Union soldiers occupied Jackson, Tennessee during the Civil War. "Probably somebody buried that money in 1861 or 1862 when the troops came in to keep them from getting it" he said, "and then died before they recovered it.

Did you know, that Robert E. Lee's father fought in the American Revolution and that Lee graduated second in his class of 45 in 1828, from West Point. We would like to remind all members to promote the positive aspects of metal detecting by requesting a letter of thanks from Agencies you assist, publicizing such activities as these as well as the return of items such as rings. Help promote our hobby. We are attempting to maintain a folder of such letters and information about our club. There was much discussion at the meeting to overcome being called looters and other negative things. We wish to be a resource to our community and work hard in any way we are asked to help. Keep up the good work.

About Our Organization

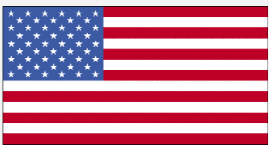

Our club was started by a small group of friends that had the hobby of metal detecting as a mutual bond. We decided that Rock Hill, S.C. would be an ideal place for our club to be based.

We chartered our club in 1994 and have been growing steadily since.

From an initial group of about six, we have grown to a membership of over 50, with new members joining almost every month.
